

WHAT'S MORE IMPORTANT THAN SOLVING A HOMICIDE?

PREVENTING ONE

"The National Integrated Ballistic Information Network is the only national network that allows for the capture and comparison of ballistic evidence to aid in solving and preventing violent crimes involving firearms."

Lawrence Panetta, Acting Special Agent in Charge, ATF Boston, U.S. Attorney's Office, District of Rhode Island, Press Release Number: 18-140

A NATIONAL ISSUE REQUIRES A NATIONWIDE NETWORK

BUILDING A PREVENTIVE CRIME GUN STRATEGY

By implementing a Preventive Crime Gun Strategy, law enforcement agencies can identify, target and apprehend shooters before they can re-offend. Building a preventive crime gun strategy starts with the implementation of the Regional Crime Gun Processing Protocols as recommended by the International Association of Chiefs of Police (IACP).

IACP REGIONAL CRIME GUN PROCESSING PROTOCOLS

COMPREHENSIVE COLLECTION OF ALL CRIME GUNS & RELATED EVIDENCE

TIMELY FORENSIC ANALYSIS

NCIC SEARCH

TIMELY NIBIN PROCESSING

CRIME GUN TRACING

INVESTIGATIVE FOLLOW-UP

PREVENTIVE CRIME GUN STRATEGY

-  UTILIZE NIBIN AS THE CORNERSTONE OF THE STRATEGY
-  CROSS-JURISDICTIONAL TEAMWORK
-  OVERLAY OF TECHNOLOGIES
-  POLICY DRIVEN TACTICS

WHY NIBIN IS IMPORTANT

- Link crimes more quickly
- Generate investigative links that would otherwise not have been detected
- Share intelligence across jurisdictional boundaries
- Give prosecutors admissible evidence to corroborate witness testimony

"The Chattanooga Police Department's implementation and use of NIBIN is an essential tool used to focus on addressing gun violence. Actionable intelligence and information that once took months to obtain, now takes hours. The department NEEDED this. The community DESERVED this."

*David Roddy, Chief of Police,
Chattanooga Police Department*

HOW WE CAN HELP YOU

Specific implementation of preventive crime gun strategies will differ from region to region. However there is one common theme that persists through all successful strategies: **Innovation.**

At Ultra Electronics Forensic Technology our mission is to protect the public by providing innovative technology and sustainable solutions that help prevent and solve crime. We offer pro bono consulting, grant writing services and seminars.

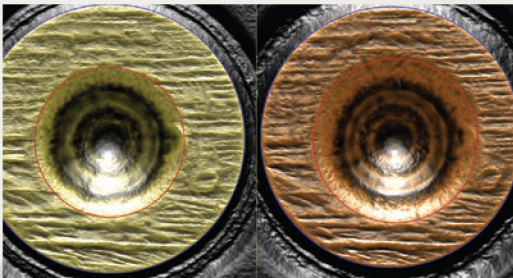

BUILDING A PREVENTIVE CRIME GUN STRATEGY

A PLAYBOOK FOR SUCCESS

By Ron Nichols

Provides law enforcement agencies with a comprehensive strategy for responding to firearm related violence in their communities, and lists the steps critical to launching, sustaining and expanding a crime-gun initiative. Request your free copy at info.na@ultra-ft.com

IBIS is the backbone of the ATF NIBIN network — The only nationwide network providing timely leads to investigators from more than 5,200 law enforcement agencies across the U.S.

IBIS LINKS FIREARM-RELATED CRIME BY MATCHING BULLETS OR CARTRIDGE CASES FIRED FROM THE SAME GUN.
